

Hurricane Florence: Aftermath

By: Zachary

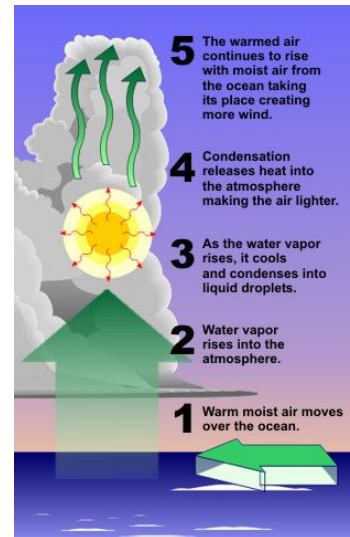

Everyone has probably heard of Hurricane Florence - a recent hurricane that struck land on Friday, September 21. Though it was not a class 5 hurricane, or something else that large, it still caused flooding and evacuation.

Where are all these hurricanes coming from? Well, global warming is a contender. The heat makes the water rise, and the rising air makes wind. The wind causes the water to spin, funneling the heat up and continuing to grow. When it gets to its full size, the hurricane is pushed to land, from the equator, as that is where it is the warmest.

There is an estimated 1.7 million people who were forced to evacuate this tragic hurricane. The rain broke records, and 11 people died. About 27 trillion (27,000,000,000,000) gallons of water was dumped [and still counting], and around 30,000 homes were destroyed. 1 million people have lost power, and 5 million people have been affected in some way.

Even worse, people are still recovering from Hurricane Matthew. Some still haven't been able to rebuild yet, and now their homes are taking another bashing.

"Hurricane Florence seems like a very dangerous hurricane," said an editor. "It seems as there is no end to the disaster," another replies.

Halloween Hotspots

By: Ella

Are you tired of knocking on a door and saying, “TRICK OR TREAT”, where then you get a juicebox, fruit leather, or a toothbrush? Well, I’m here to tell you the best places to get the satisfaction that your sweet tooth needs. In North Plains, there are neighborhoods filled with goodies and places like the senior center or church. If you like plain old sugar, go to the Senior Center on 3131450 NW

Commercial St -- it serves Pixie Stix on Halloween. Apparently some of the churches have some pretty good candy. But one church has the best. The North Plains Christian Church on 31231 NW Commercial St Next to the North Plains Library *will* have some good candy. There’s a neighborhood that some houses give out around two handfuls of candy - that’s right; two - and it’s really good candy, but not the best if your allergic to tree nuts or peanuts. The neighborhood is on NW Kaybern Street. The new housing development next to the school has great candy. The street is called NW Wascoe st. Finally, NW 321st avenue and NW 320th avenue has jumbo sized candy and also gives out handfuls of candy.

Housing Problems

By: Zachary

These days, North Plains is having a large population problem. School(s) are being filled, and the district is being forced to add a new school to the area. Once a small town, it is now a large development area. The population is growing, causing the many problems. In fact, just in the US, between 1999 and 2000, it gained 10 million people! North Plains is gaining around 20 - 50 people a year!

A bond passed last year allowed money for the new district school developments. North Plains Elementary School (NPES) has received 100 kids in the last two years.

“Previously, we had two open rooms,” and editor says, “Now, we moved music into a portable classroom, and there is now way we can add another class now.”

Hopefully, the population will slow its growth. However, there seems to be no end in sight.

Airshow

By: Sophia

This years international air show was held at the Hillsboro OR. airport. It lasted between Sept. 28th - 30th. The show starts at 5:30 pm and ends at 9:00 pm. Even if you didn't get tickets, you can occasionally see the airplanes flying across the sky, sometimes right over your head. Some of the planes used were Canadian Snowbirds, and Thunderbirds. The U.S Navy's Blue Angels did not take to the skies at this years air show due to national budget cuts. Either way, the show was still amazing!

(Left) The 'Jet Truck' -- A truck with a jet engine.

(Top) The Canadian Snowbirds.

Fall Changes

By: Jake

One change is the leaves change color to orange and yellow, and they fall. They fall because they do not have enough to water keep them alive. The weather changes are quite big. In the last summer, the highest temperature was in the high 90s. The Winter was between 32°F and 38°F. That's a 60 degree difference. Animals migrate South to warmer weather. Migrate means to move from one place to another, usually due to weather. Many animals are getting ready to hibernate. You might see squirrels collecting food for winter. They do it before Winter because they're not going to find food under the fallen leaves.

NOVEMBER 2018

When Should Kids Stop Trick Or Treating?

By: Aidan

Most people say there's not an age to stop trick or treating, but others say you should stop somewhere between 12 and 17. All people have different opinions on this subject. Most people say its OK if kids from 12 to 17 go trick or treating as long as they're polite. Most states have laws against kids over the age of 18.

Glencoe Crimson Tide Football Schedule/Scores

By Micah

Glencoe Tide football teams' game season started on August 31, 2018, with a win against Hillsboro, 38-14. Sadly, Glencoe lost to Westview, 14-53. Then Glencoe lost to Roosevelt, 24-43. After the disappointing losses, Glencoe came through and beat David Douglas, 34-20. Glencoe crushed Madison with a whopping 63-22. Madison did not get even half the points Glencoe did! The future game airs at 7pm 10/26. Glencoe has a much healthier program this year, and they hope to dominate the rest of the season.

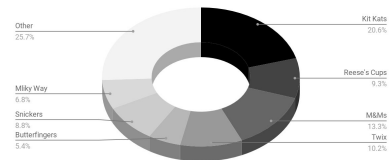

Hillsboro Soccer Team Scores

Hillsboro (Home) vs Hillsboro: 2-0 WIN
Hillsboro vs Scappoose: 2-0 WIN
Hillsboro vs Tillamook: 4-2 WIN
Hillsboro (Home) vs Hillsboro: 5-1 WIN

Which candy is preferred?*

Kids Favorite Candies

*100% kids choice!

In 1519 the first candy was made by Cave Man, who made candy out of honey by drying it and forming a taffy. Candy has been around for about 3,000 years that's a long time. The first chocolate candy bars were made by Joseph Fry in 1847. Joseph Fry used bittersweet chocolate.

Interesting & Simple Art Projects

Halloween is here, and everyone knows the basics. You dress up and go around getting candy. What everyone doesn't know is the awesome art you can make. There are many amazing art projects that relate to Halloween, and some of them are pretty simple as well.

Zentangle Pumpkins:

By Micah

1. Draw (a) pumpkin(s)
2. Divide it into sections
3. Outline with Sharpie
4. Make designs that continue on
5. Color

Cubism Wax Paper Self Portrait:

By Micah

1. On wax paper, draw yourself
2. Outline with Sharpie
3. Draw random lines along the portrait
4. Trace lines with Sharpie
5. Color and glue lightly on canvas*

*Make sure to wrap edges around canvas

Draw Your Art Piece and WIN

When you are done, give it to Zachary Alig. The best projects will be submitted in the next issue. For next issue, try to do a creative drawing of Autumn or some animals. If the project is multi-step, include ALL of the steps.

**The editors can refuse any picture, even if that is the only one submitted.

Halloween Safety

By: Andres

Before you go trick or treating something, you should make a plan where you will be trick or treating. If you are trick or treating in an unfamiliar area then you should carry a map just in case you get lost. You also should know the areas where you will be trick or treating. Sometimes halloween nights can be very dark so you should carry some light so you will be able to see. While you are trick or treating something you shouldn't knock on doors that don't have decoration or lights. Some people don't want to participate in trick or treating, so if they don't have decoration or lights that probably means they don't want people knocking on their doors. Also, sometimes people could be doing important work or could be sleeping, so if you knock on their door, then they wake up. When you're done trick or treating you should check wrapped candy. Sometimes wrapped candy can be tampered with. It is highly unlikely of happening but you should still check. One way to check is to lay out all your candy and check all the wrapped candy to see if they have been tampered or if they have torn up wrappers.

HAPPY TRICK OR TREATING!

After School Programs

By: Zachary

Since the beginning of school we have now added four after school programs. They are listed below:

- Mad Science
- Code to the Future
- Science Matters
- Model Painting at the North Plains Library

If *you* want to join one of these, visit <https://www.hsd.k12.or.us/Page/4169>, or talk to your teacher.
