

World Cup in Review

By: Micah

Soccer is the most-watched sport in the world. More than 4 out of 10 people consider themselves soccer fans. This year, the extremely popular world-wide soccer competition, the FIFA World Cup, aired from June 14 to July 15, 2018. This year was the first year from the 1940s that U.S.A. failed to qualify. The World Cup was held in Russia, and it was heated. To start it off, the winners of the World Cup were France. Many people were thinking that Brazil, Portugal, Mexico, Argentina, and more were going to have a good chance of winning. Unfortunately, Argentina lost to Croatia early on, and Portugal was knocked out by Uruguay. Mexico and Brazil (led by Neymar Jr.) were each having a good season; until they were pitted against each other. Mexico put up a hard fight, but Brazil came out with a 2-0 victory. Croatia started convincing people that they were good enough to win- until they were knocked out by France.

The next time the FIFA World Cup happens, it will be held in Qatar, Canada. This year was heated, but 2022 will be brutal. Who knows? Maybe one day YOU'LL be in the World Cup!

Sea of Orange

By Ella

On September 3rd, Monday of 2018, a tragic death occurred. Beaverton High Senior Reese Wygant died of kidney cancer on this sad day. People all across America were devastated by his death. Attendees at several high school football games throughout the metro area Friday night saw a sea of orange. Even Glencoe had a lot of people dressed in orange at their game that, sadly, they lost. But it's amazing what they did to honor Mr. Wygant.

Recognition

By: Ryan

This year teachers will be looking for students that are respectful and responsible. These two words mean a lot to teachers and it makes them proud to see you doing what these two words mean at school. This is what teachers need to see to give you a Shining Star, so do your best and be respectful and responsible.

Responsibility: Students take actions and make choices to support their own academic learning and behavior

Respectful: Behaving in a way that shows admiration for another person.

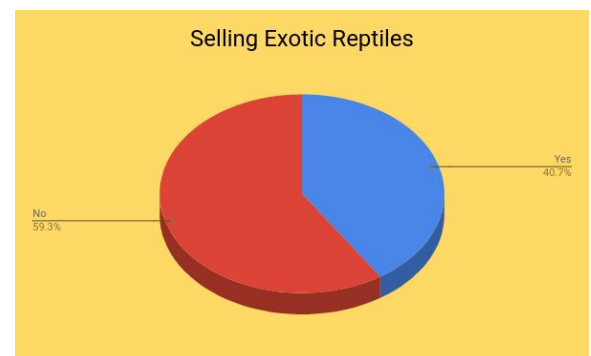

Should Exotic Reptiles be Sold as Pets?

By: Andres

A lot of people own different pets, but many people in the United States own exotic reptiles and amphibians. Exotic reptiles and amphibians are usually from a different country and not domesticated. Many cities and states have their own laws of what animals, people can have as a pet. For example, Ohio doesn't allow residents to own exotic or dangerous animals after the Exotic Pet Massacre. Some people think that people who get exotic pets don't know how to care for an exotic animal. Snakes usually need expensive cages or vivariums. Other reptiles and amphibians usually need heat lamps and need to be watched often.

Yes, exotic reptiles should be sold as pets → 11 out of 27

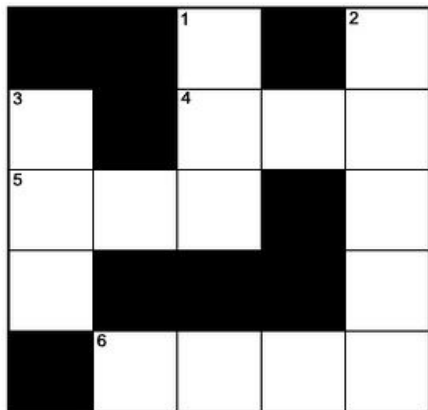

No, exotic reptiles should not be sold as pets → 16 out of 27
